In the year 2016 the partners of the Interreg IPA CBC Italy-Albania-Montenegro Programme carried out management and preparation activities, which set the ground for a smooth start in 2017:

The Joint Monitoring Committee (JMC), the decision-making body of the Programme, was established. It approved its own rules and agreed on the composition of the Joint Secretariat, the budgets and the first call for projects. It also approved the Communication Strategy of the Programme and the overall Programme timetable.

In December 2016, the Managing Authority successfully recruited the Staff of the Joint Secretariat (7 persons) and its own Technical Assistance support (2 persons), as well as it set up the electronic monitoring system for the Programme.
